Summary:

Full Stack Developer with experience in team environments, contributing to the end-to-end development of applications. Proficient in utilizing cutting-edge technologies to deliver robust and interactive solutions. Adept at working within an agile framework, I have successfully collaborated with team members to build feature-rich applications, ensuring seamless functionality and optimal user experiences. My skill set extends beyond development, encompassing UI/UX design principles to create visually appealing interfaces that enhance user engagement.

Hard Skills:

Tools & Technologies: JavaScript | ES6 | HTML5 | CSS3 | Mern Stack | React | Redux | jQuery | Bootstrap | Pug | Agile Methodologies | GitHub | G-Suites | Jira | Confluence | Firebase | Scrum | Next.Js | Tailwind | Toggl | VSC

Soft Skills:

Communication | Teamwork | Creative Thinking | Adaptability | Problem Solving | Time Management | Client Relations | Networking | Leadership | Organization

Projects:

https://github.com/MichaelAJensen/Full-stack-Login-and-Registration-w-Todo-List- Mern-stack aplication utilizing React/Redux framework with user specific login and registration and unique styling visuals.
https://github.com/MichaelAJensen/Socket.io-Chatroom-w-Pug - Interactive chat application utilizing Pug for front-end design.
https://github.com/MichaelAJensen/React-Redux-Front-End-Dashboard-of-My-Projects - React/redux front-end project showcasing several of my earlier smaller React/Redux projects.
https://github.com/MichaelAJensen/3js-Solar-System - Interactive 3js Solar System project utilizing React.

Work Experience:
Web Developer | May 2024-Present
Banyan Labs
 -Implement agile methodologies to dissect UI design into practical sprints and achievable tickets within Confluence and Jira.
- Managed and built multiple sites and applications using HTML, CSS, JavaScript, and Mern-stack.
- Network and build relations to create and solidify client contracts and partnerships.
- Work in a team setting creating projects through gitHub.

Operations Manager | March 2014 - April 2015
JB Hunt Transport | Tempe, AZ
-Led a three person management team opening a Mission Foods account with our office based out of the Mission Foods Plant in Tempe.

-Hired 24 drivers and oversaw the logistics of delivering Mission Foods west to our distribution center in Rancho Cucamonga, CA, and east to our distribution center in El Paso, TX.
-Oversaw the logistics of delivering Mission Foods products throughout the state of AZ and the greater Albuquerque, NM area.

Fleet Manager | Feb 2011 - March 2013
JB Hunt Transport | Chicago, IL

- Coordinated logistics transporting JB Hunt containers to and from 8 Chicago Rail yards to and from JB Hunt customers.
- Worked with other Fleet Managers and Area Service Managers to efficiently provide the highest level of customer service and leadership for our drivers.
- Directly supervised 52 drivers and indirectly supervised roughly 350 drivers throughout my shift.
- Responsible for the payroll, ongoing safety certifications, and daily activity of my 52 drivers.

Education | Certification
Certificate: Mern-Stack Web Development
Persevere Now Coding Boot Camp | 2023-2024

Degree: Associates in Science
Joliet Junior College | 1996
